Microsoft Technology Series

4 Sundays
August/September 9am - 10am

Microsoft Store
Ala Moana Shopping Center
1450 Ala Moana Blvd. Suite 2238

The Microsoft Store at Ala Moana and Autism Society of Hawaii have teamed up to launch the Microsoft Technology Series! Technology continues to advance and has transformed learning for all students. This series will help kids learn about technology in a fun and interesting way.

TouchDevelop*

- In this series, participants learn and play with all things TouchDevelop using a Surface Pro! The TouchDevelop website offers fun tutorials to create games and apps on phones, tablets and laptops. Participants first learn the basics, then try a challenge, and later showcase their work on the TouchDevelop site.

In this foundational session, participants log-on and explore the TouchDevelop website. Activities include learning to code with the TouchDevelop turtle, Jetpack Jumper, and Flatverse. The session progresses to having participants create their very own game and sharing it with fellow participants.

*Microsoft Account is required. Sign up for a Microsoft Account at: <https://signup.live.com>

Each workshop provides hands-on instruction and teaches the tools and tips students need to know in today's world of continually advancing technology. This series is focused on children ages 7 – 11. Please note that class sizes are limited to **20 participants (10 in August and 10 in September)** on a first come, first serve basis. Sign up today! Participants should be able to attend all 4 sessions. Pictures from past sessions can be found on our Facebook page.

*** There will be 2 workshops, one in August and one in September, both 4 Sundays at 9am, each limited to 10 participants each. Based on the students' background information (experience in coding etc.) Microsoft will make the determination of group that best matches the student. All RSVP's and registration forms must be submitted to me by July 21st and the student's group assignment will be provided by July 28th. Waitlisted applicants will be notified as space is available.
